

*The women's team is back from Spain. Most of the players have played their first game on turf. Though we have not won any game in the tour we have come back with a lot of experience which will definitely help us in the next games we play. Our bowling has improved compared to the previous tours and the team was extraordinary on the field.*

*Things will take time and it is important that we believe in process. We are always supporting our women's team and we believe they will come back much stronger in the future games.*

*Norwegian women's Team at Desert springs, Spain 2022*

*Team Training at Gym*

*Ramya Immadi: Player of the match against Sweden*
